

EMM25 Sonde Spar

DESIGNED FOR RAPID DEPLOYMENT, EVENT MONITORING AND EASY USE

Looking for a cost effective way to deploy a water quality sonde? The EMM25, Sonde Spar is designed to be a low cost option for short and long-term monitoring. It's simple to use design allows for rapid deployment for event monitoring and emergency response. The lightweight design allows for the system to be deployed by a single person; it can be deployed from a small boat or from shore. The integral deployment tube will accept any YSI EXO or 6-Series sonde or 3rd party device

Available options for the EMM25 Sonde Spar include an amber, self-contained flashing beacon for deployments in navigable waters. Bluetooth connectivity for remote data access from a compatible Bluetooth enabled device.

Features Include:

- Low-Cost Option for Short-Term and Long-Term Monitoring
- Single-Person Deployment
- Designed for Rapid Deployment
- Event Monitoring, Emergency Response
- Works with YSI EXO & 6-Series Sonde and 3rd Party Devices
- Lockable Well Cap for secure deployments
- Indestructible buoy hull survives impact, punctures and vandalism
- Won't warp, dent or crack through normal use
- Uniform color doesn't require regular maintenance
- Through-hull penetration for monitoring equipment makes routine servicing simple, fast and secure
- Standard configuration available with short lead time.

Available Options

- Beacon
- Bluetooth Radio
