

OLYMPUS

Your Vision, Our Future

Revolutionary. Rugged. Efficient.

VANTA™ Handheld XRF Analyzers Fast, nondestructive precious metals ID

Characterize a wide range of jewelry and precious metals in seconds with the Vanta handheld XRF analyzer.

- Fast, accurate precious metals identification
- Measure gold (Au), silver (Ag), platinum (Pt), rhodium (Rh), and palladium (Pd) in one nondestructive test
- Excellent sensitivity for testing precious metals and on-the-spot gold karat classification
