

# Vanta™ iX In-Line XRF Analyzer

100% Inspection on the Manufacturing Line

**OLYMPUS**®

## Powerful Processing

Vanta electronics provide speed, stability, and a high count rate

## Built-In Heat Sink

Lowers the internal temperature

## Intelligent Integration

Connector options include Ethernet (RJ-45), USB, discrete I/O (16 pins), and auxiliary DC power

## Toolless Window Changes

Fast maintenance

## Rugged Kapton® mesh window

Helps protect the analyzer

## Modern Data Transfer and Control

Easily control the analyzer with a PLC and discrete wire or the Vanta Connect API

## Metal Fabrication

Avoid material mix-ups with 100% inspection

## Geo Processing

Monitor process variability and efficiently scan cores
